

# CALL+0 ACTION

**June 10, 2015:** If we've said it once, we've said it twice and it bears repeating; Brantwood would not be able to do half the things we do currently without support from our community who so often answers our call for action. We often are asked what our current needs are. So, we'd like to inform our supporters of our current need.

With our broad mission of supervising the education, health, and social adjustments into the community, we strive to give our children the tools needed to be successful members of society. One way we do that is through our Independent Living Program which encourages our young adults to be independent decision makers.

This year our program is expanding by two additional units. Although grateful to be able provide this service to additional youth, it comes with the unforeseen challenge of having to furnish the empty spaces and making it a place in which they can thrive.
